Chilean Exporters Association (ASOEX)

The Chilean Exporters Association is a non-profit private trade association, whose members represent 92% of Chile's total fresh fruit exports, and more than 50% of this sector's total production.

Established in 1935, its main objectives are to facilitate the fresh fruit exporting process, promote the sector's interests, open and defend international markets, encourage the development of Good Agricultural Practices (ChileGAP®), motivate worker training programs, stimulate research innovations and position Chile as a reliable fresh fruit supply partner to the world.

Presentation

The 2009-2010 season will definitely be one that the Chilean fresh fruit industry will never fail to remember. A series of startling events that have occurred this past year will make this past time unforgettable.

The 8.8 earthquake that hit our country on February 27, 2010 is definitely the first thing on one's mind when thinking about this past year, considering the fact that it has provoked major losses to our country and will pinpoint a before/after phase into the future. Fortunately, the fresh fruit industry's recovery took place within a matter of days and by beginning of March, Chile's main ports and roads were back to normal and important volumes of harvested fruit were headed to international markets. We remain optimistic that this season will not be marked by this dreadful earthquake, but will be remembered as an example of how the industry, its workers and the government united worked towards the prompt normalization of the country.

In spite of an unprecedented natural disaster, this present year will also bring the country together to celebrate our country's 200 years of existence. Coincidentally, as an industry, we will be commemorating the Chilean Exporters Association's 75th anniversary. This is a very important year for us and it will help us reinforce our mission to consolidate existing relationships with our fellow fresh fruit industry colleagues around the globe.

One of our many goals as an industry is to continue to increase our competitiveness in international markets. As a strategy to help us achieve this goal, product-specific committees have been formed under the auspices of the Chilean Exporters Association (ASOEX) made up of key exporters/growers which represent the highest percentage of emerging fresh fruit production in Chile. The newly formed kiwifruit, blueberry and citrus committee have joined efforts and formed organizations designed to address issues affecting their specific sectors, including production, quality and post harvest standards, market analysis research, promotional activities, amongst others.

Through our industry's continuous promotional activities, our season has directed us to allocate our efforts into exploring opportunities in emerging markets, such as South East Asia where we will be holding this year a guided mission to Thailand. We'll be also participating at the 2010 Expo Shanghai together with Chilean authorities.

We are strongly committed with our key suppliers and customers and will continue to work hard in positioning Chile as a reliable fresh fruit partner to the world.

WHO WE ARE

Frutícola y Exportadora Atacama Limitada was established in 1983 by the Ruiz-Tagle Correa brothers, Sergio and Gabriel, and currently encompasses 950 hectares located near the City of Copiapó, III Region of Atacama, in northern Chile. Our company specializes in the production of table grapes, with a great diversity of varieties and harvest times.

EXPERIENCE

The grapes are grown on our own plantations and are handled by a team of dynamic professionals who efficiently integrate production and technology with exporting and commercial management in order to supply the world's different markets. Throughout the production and marketing process, the grapes are closely monitored by a group of top quality professionals who insure that only the highest quality grapes are exported.

COMMITMENT

Our entire group is committed to provide a select final product that meets with the highest standards. Our proactive Customer Service approach is ready to respond at any time to the requirements of our customers.

We invite you to work with us, to visit our fields and facilities in the Copiapó Valley and our offices in Santiago de Chile
